

REMARKS

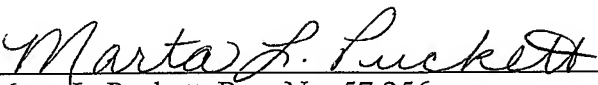

In the communication dated November 9, 2007, Examiner Snow alleged that Applicant's communication filed on October 30, 2006 "is not fully responsive to the prior Office Action." The communication dated November 9, 2007 appears to be an exact copy of the previous communication mailed January 10, 2007, to which Applicant responded on February 12, 2007. Both of Examiner Snow's communications mailed January 10, 2007 and November 9, 2007 request that Applicant elect a "single device position as shown in the elected system figure or a separate single finger." In Applicant's Response to PTO Communication dated February 12, 2007, Applicant elected the device position exemplified in Fig. 3A, with traverse.

Applicant's attorney thanks Examiner Snow for his courtesies in a telephone interview today, December 10, 2007. In the telephone interview, Examiner Snow confirmed that the communication dated November 9, 2007 appears to be a mis-mailed copy of a previously-mailed communication, the substance of which Applicant need not respond to (as Applicant already responded on February 12, 2007).

Examiner Snow also stated in the telephone interview that Applicant need not provide a listing of the claims; however, Applicant is including a listing of claims in the present Response for Examiner Snow's convenience. The listing of claims in the present Response includes the claims as amended in Applicant's Response to Office Action dated August 13, 2007, including the new claims which were presented therein.

If the Examiner feels that any issues remain, the Examiner is invited to contact the Applicant's undersigned representative by telephone.

Respectfully submitted,

Marta L. Puckett, Reg. No. 57,256
